- Tips – A few tips to help ensure the speediest processing

Submitting Consumer Credit Applications and Deal Structures

The fastest and most efficient way to begin the process of getting one of your customers financed is to use one of the following two links below (they point to the same URL):

[Dealer Fillable Credit Application with Structure – Click Here](#)

This link will allow you to enter all of your customer's credit information and will also allow you to enter a deal structure. You may also upload Buyer's Orders, Invoices, Book-Outs and other pertinent information right from this link.

Use of this link will ensure the quickest processing time. (If you have been typing into the fillable PDF, please use this link instead.)

You can have your customer fill out their credit application online by using the following links (note that we will still need a Deal Structure and Invoice Amount):

A Few Tips

To expedite the processing of your Credit Applications, please try and have them come to us through the online forms from the links above.

When entering your Credit Application and Deal Structure, please try and ensure that:

- All information is complete and accurate, especially:
 - Length of time at residence and employer (and if less than two years at either, be sure to get prior)
 - Income information
 - In the Deal Structure, do not combine Doc Fees, Registration, License, Title and other...there are fields for every unique element...the more specific you are, the faster we can process the application
 - In the Deal Structure, provide as much detail as possible

We are here to help! Anything that you miss, we will catch and will correct. The more you provide and the more accurately you provide it, the faster you and your customer will get results.
